

Hello Vogels

Thanks for your purchase of our product.

We are very honoured that our competitor has bought one of our TV stands. We think we have done something right here, when guys from Vogels look our way.

We hope you will spend a lot of time being jealous, and appreciate some god Danish handcrafting.

There are many great ideas build in to product, and we know you will spend time finding them all.

We still have a large bag of great ideas. And that's why this one won't be the last model from us.

We hope you will follow us closely, because we are on the track for something huge.

But be careful, we watch the other way too, to see if something familiar comes up further south.

Enjoy our stand, and please give us a call if you have any questions.
